

REPORTING AGREEMENT-PRODUCTS

1 Background

1.1 According to the Ordinance (2014:1075) on producer responsibility for electronic equipment (referred to below as the “Ordinance”), producers of the products encompassed by the Ordinance are, inter alia, obligated to ensure that such products are collected and taken care of.

1.2 Furthermore, under the Ordinance, the producers shall, no later than by 31 March each year, submit information to the Swedish Environmental Protection Agency (Sw. Naturvårdsverket) regarding the quantity of electrical and electronic equipment made available on the Swedish market during the preceding year, and – in respect of consumer electrical and electronic waste – the quantity that has been collected, treated in Sweden and transported to another country, etc.

1.3 The Ordinance state in more detail what information the producers shall register and report to the Swedish Environmental Protection Agency.

1.4 The producer is covered by the provisions of the Ordinance. The Parties have earlier concluded a Connection Agreement (“Connection Agreement”).

1.5 The aim of this agreement (the “Agreement”) is to expand the collaboration between the Parties in such a way that El-Kretsen undertakes to also assist the producer, to a certain extent, in connection with the fulfilment of the producers’ obligations under the Ordinances to provide information to the Swedish Environmental Protection Agency.

2 El-Kretsen’s obligations

2.1 El-Kretsen undertakes to assist the producer in connection with the provision of information to the Swedish Environmental Protection Agency in accordance with Sections 62 and 63 of the Ordinance. Information regarding collected consumer electric and electronic equipment will be submitted to the Swedish Environmental Protection Agency as a lump sum per year, i.e. not specified as per producer.

2.2 El-Kretsen’s undertaking includes the compilation of the information that the producer has provided to El-Kretsen and – as soon as the producer has made the required supplements and approved the information – report the information to the Swedish Environmental

Protection Agency in accordance with the provisions of the Ordinance.

2.3 El-Kretsen does not accept any responsibility as regards the correctness of the information provided.

3 The Producer’s obligations

3.1 This Agreement does not in any way restrict the producer’s obligations to provide information to El-Kretsen in accordance with the Connection Agreement.

4 Confidentiality

4.1 During the term of this Agreement and thereafter, El-Kretsen undertakes to treat all information, which has been provided by the producer in its reports or in corresponding information arising in connection with reviews or otherwise in contacts between El-Kretsen and the producer, as strictly confidential.

4.2 Information received by El-Kretsen in this manner may not be used in any way other than for the performance of this Agreement. However, El-Kretsen shall always be entitled to provide information to a third party about the validity of the Agreement and the basis for the termination of the Agreement.

5 Terms of Agreement, etc.

5.1 This Agreement applies until further notice. The Agreement may be terminated by either party with one month’s notice of termination.

5.2 If the Connection Agreement concluded between the Parties ceases to be valid, this Agreement shall also cease to be valid at the same date as the Connection Agreement.

6 Disputes

6.1 Disputes concerning the drawing up, application or validity of the Agreement shall be determined by Stockholm District Court as the first instance.

7 Other

7.1 The Producer is aware that it can, at any time whatsoever, verify the information registered by El-Kretsen on behalf of the producer under this Agreement in what is known as the EE Register, which was available via the Swedish Environmental Protection Agency’s website, www.naturvardsverket.se, when the Agreement was concluded.

8 Amendments

8.1 El-Kretsen shall be entitled to make minor amendments or additions to this Agreement caused by amendments or additions in the Ordinances or other applicable legislation. Notices of such amendments or additions shall be made to the producer no later than one month prior to such amendments or additions enters into force.
